840SSSL thru 1120 knockout detail.
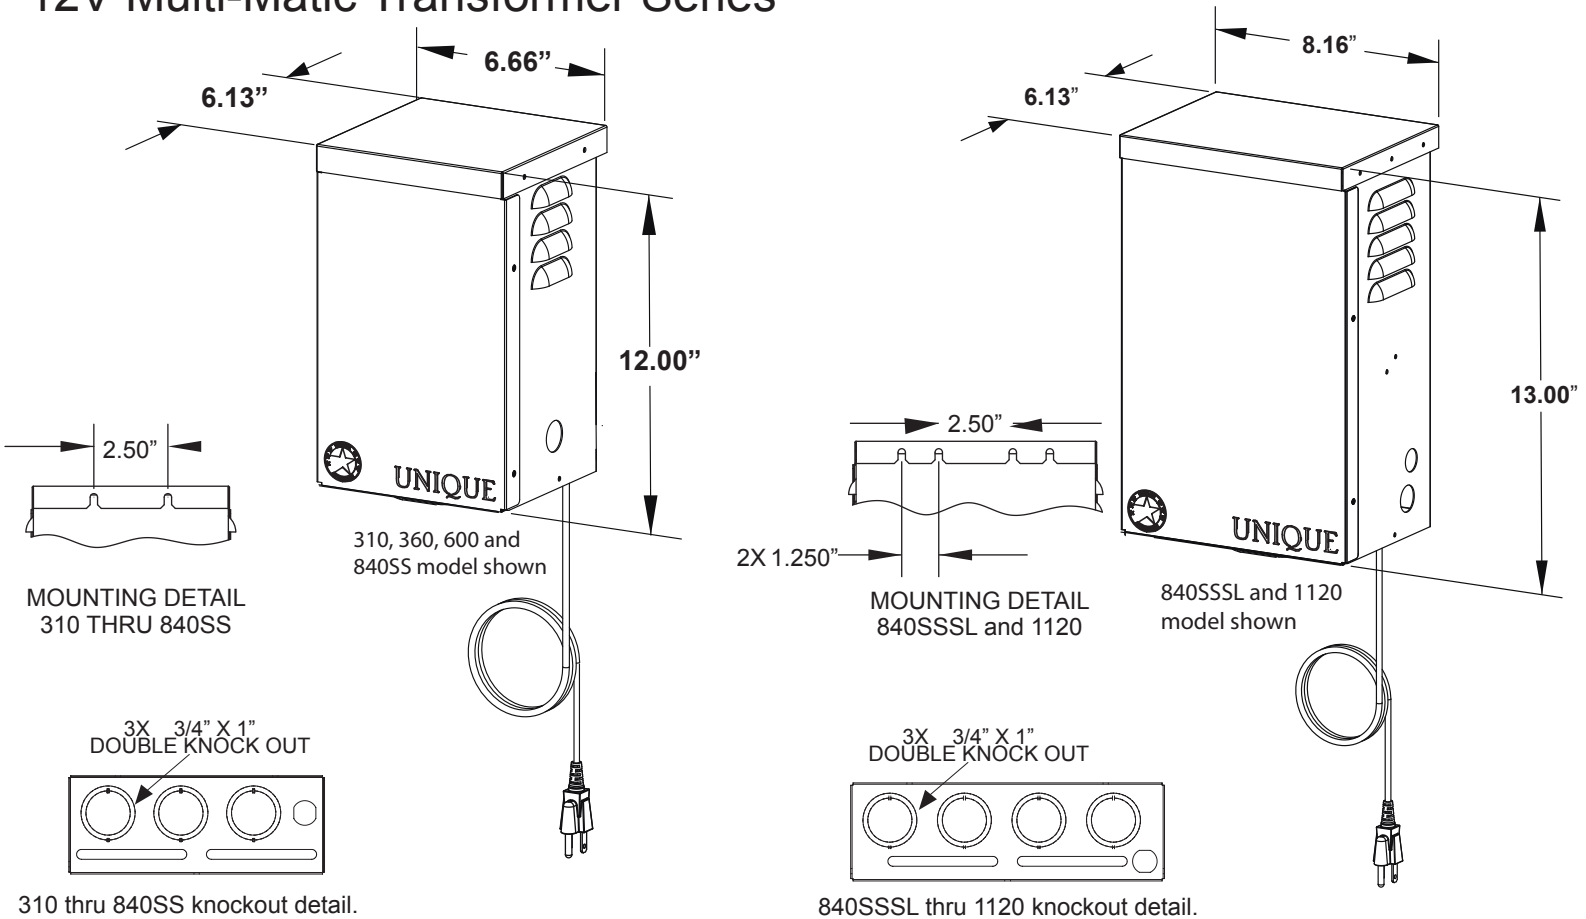

SPECIFICATIONS:

(Specifications subject to change without notice)

Construction: 304 Stainless Steel (Complies with NEMA 3R)

Fuse Type : Replaceable 3AG Time Delay (glass slow blow fuse)

Core: Magnetic Single Core (97 % Efficiency)

Power cord: 16/3 SJTW Power Cord. Six Feet in Length

Instructions, mounting template, .05oz of ox guard grease,
3mm t-handle allen and hardware included.

Replaceable Timer, Photocell (SNPC) and Sequencer ready

TYPE

☐ **SS**
Stainless Steel wired secondary

☐ **SSSL**
Stainless Steel secondary lug.

☐ **SSHL**
Stainless Steel homeline 12V only.

OPTION # 1

☐ **SF**
25 amp resetable circuit breaker at each common tap.

OPTION # 2

☐ **WB**
Weather brass finish.

OPTION # 3

☐ **208**
208v 60hz primary power.

☐ **240**
240v 60hz primary power.

☐ **277**
277v 60hz primary power.

MADE IN THE USA

12V Intelli-Matic Transformer Series

FEATURE	BENEFIT
Transformer cores are impregnated with Elantas insulating varnish.	Virtually eliminates buzzing and humming. Seals the core from weather.
Up to eight different secondary voltage taps.	Allows installer to compensate for voltage drop. Virtually eminates the need for costly 8 AWG and 10 AWG cable.
Thermister on 600,840 and 1120.	Reduces inrush current during transformer start up.

OPTIONAL ACCESSORIES (Sold Separately)
T = Timer (Paige Electric manual timer with illuminated faceplate)
DT-2 = Digital Timer (Wall mounted 2 outlet digital timer)
SEQUENCER (All-On Module)
SNPN2 = Photocell   (Snap in Photocell)
SNPCJ = Jumper   (Photocell bypass jumper)
SNPCRM = Remote PC 25' (Snap in Photocell with 25' of cable and a junction box)
INUSESINGLE = In use cover single gang (TayMac water proof outlet cover for single gang box)
INUSEDOUBLE = In use cover double gang (TayMac water proof outlet cover for double gang box)
